Features

- Removable rotary plate to irradiate a low position (approx. 15 mm high)
- By irradiating with a full horizontal line, there is no need to rotate the main body, which greatly improves work efficiency
- Cone mirror enables 360° irradiation* for a full horizontal line without rotating the main body
*Case corners will partially obstruct laser line.
- Laser light in strong mode is easy to see in bright places, yet not overly bright in dark places while in weak mode. Long-lasting batteries enables continuous use over a long time.
- Bright and vivid red laser
- Power consumption can be reduced by changing exposure only to necessary lines (except 21AR, 01AR)

	⑤ button to switch line patterns

- Includes Level adjustment tripod adapter that makes it easy to adjust level when using a tripod

- Can be adjusted to a precise reference with rotary fine-adjustment knob capable of 360° rotation
- Inclination is automatically corrected up to ± 3°
- Dust/Waterproof structure IP54

Use

- For setting standards at construction sites, interior work, etc.
- For one-person work and labor saving
