Stud Finder Pro

78990

Needle : Wall thickness up to **25** mm

78991

Needle : Wall thickness up to **35** mm

78992

Needle : Wall thickness up to **35** mm
 Magnet : Wall thickness up to **13** mm / ceiling thickness up to **12** mm
 *When finding steel material behind plasterboards, the usable area of magnet can vary depending on conditions.

78993

Needle : Wall thickness up to **45** mm

Detection with the needle
 Wooden studs can be found by using the needle

Detection with magnet
 Metal studs can be found from sounds without the needle

Features

- Needle-type stud finder for plasterboards
 *Cannot be used on reinforced plasterboards.
- Finds studs behind wall panels easily and accurately
- Stainless steel guide for straight penetration and to prevent needle bending

- Graduations to measure the thickness of the wall material approximately
- Elastomer grip that fits snugly and does not slip

- Includes two replacement needles inside
- Safety lock feature prevents the needle from coming out accidentally

- Large hook hole for attaching to a swivel, etc.

Magnetic model

- Can detect location of nails or metal studs (steel) under wallpaper without scratching the wall

Use

- For finding studs behind plasterboards
- For finding studs during construction, etc.
