Square Stopper

Item Code	Description	Body Size (mm)	Weight (g)	JAN Code	Packing Unit	Packaging
12481	Metal Body for 15 mm width Carpenter's Square	78×43×12	86	4 960910 124813		
12484	Metal Body for 20 mm width Carpenter's Square	83×43×12	89	4 960910 124844		
12436	ABS Resin for 15 mm width Carpenter's Square	70×40×14	17	4 960910 124363	5	SP
12428	ABS Resin for 20 mm width Carpenter's Square	75×40×14	18	4 960910 124288		

Features

- Long marking lines can be drawn by attaching to the corresponding carpenter's square (15 mm width)
- Draw a 45° marking line by changing the edge position
- Can be mounted upside down to measure height
- Measuring a scribed line is possible using the carpenter's square graduations
- Wide stopper securely fits against the material, so a stable scribed line can be drawn even on a chamfered surface.
- Square Stopper Metal Body and Carpenter's Square Flat
 - Made of metal that is highly resistant to impact, wear, and heat
 - Vernier scale allows for fine measurements in 0.1 mm increments
- Carpenter's Square Flat
 - Thin, flat surface makes for easier use on smaller objects and easier marking
 - Inner graduations based on the outer scale reference point
 - Hard chrome finish (matte processed) to prevent glare and make it easy to see

- Has flexibility due to heat treatment

Use

- For marking or measuring sheet thickness

Shape of Corner	Flat			
Squareness	Less than 0.1 mm per 100 mm			
Length Tolerance	±0.2 mm			
Material	Stainless steel			
Square Stopper				
Supported *1 Carpenter's Square Sizes	Thickness: 1.4 mm Width: 15 mm			
Angle Tolerance *2 of Stopper	Less than 0.2 mm per 100 mm			
Material	Body: Zinc Screw: Iron Leaf Spring: Bronze	Body: ABS resin Screw: Iron Leaf Spring: Bronze	Body: Zinc Screw: Iron Leaf Spring: Bronze	Body: ABS resin Screw: Iron Leaf Spring: Bronze

*1 Only for carpenter's square with flat corner

*2 Accuracy of the carpenter's square stopper itself. Accuracy will change depending on the carpenter's square used.

Features

- Attaches to a carpenter's square for drawing long scribed lines or 45° marking lines
- Wide stopper is stable even on a chamfered surface
- Can be mounted upside down to measure height
- Metal Body
 - Made of metal that is highly resistant to impact, wear, and heat
 - Vernier scale for reading fine dimensions
- Stopper for 20 mm width Carpenter's Square
 - Can clamp on object to measure sheet thickness and diameter

Use

- Attach to Carpenter's Square for marking or measuring sheet thickness and diameter
